

# Adhesives

test

If you wish your product to be lighter, stronger, to look better and last longer, to be more easily and more cheaply produced, take an interest in 3M™ adhesives. Designers, technologists and engineers expect better and better features, which will help them design and manufacture their products in a better and more efficient way. Thanks to more than 50 years of experience in the development and production of industry adhesives, 3M™ adhesives can meet these requirements.

- [Jet-Melt™ Adhesives](#)
