

Reclosable Fasteners

3M™ reclosable fasteners are used in many industries, including the automobile industry, construction, metal production, furniture manufacture, plastics processing and others. They are highly resistant to aging, variable in use and simple to apply. 3M™ reclosable fasteners can be supplied in various formats and versions so that they reliably and effectively meet your requirements.

The Two Chief 3M™ Reclosable Fastener Systems are:

- [Dual Lock™ systems](#)
- [Scotchmate™ systems](#)
