

# Scotchmate™

## 3M™ Scotchmate™ Fabric Reclosable Fasteners

Typical reclosable fasteners based on the hook/loop principle. The Scotchmate™ system is a net of tiny, stiff hooks with pliable loops for fast mating, helping to save you time and material.

- an adhesive layer resistant to softeners, for bonding to most vinyl materials
- available materials include UV, flame and humidity resistant materials
- versions with and without adhesive
- white or black colors
- resistant to most softeners and hydrous solutions
- versions designed for sewing can be safely washed and cleaned chemically without being damaged

## Scotchmate™ Self-Adhesive Reclosable Fasteners

Type (reference identification)	Character	Standard color	Adhesive	Higher temperature resistance		Usage
<b>SJ 3401*/ SJ 3402*/</b>	hook, loop	white, black, beige	no adhesive - a smooth backing	121°C	NA	To be sewn to bedding, fabric and clothes.
<b>SJ 3526*/ SJ 3527*/</b>	hook, loop	white, black, beige	rubber	49°C	70°C	High adhesion strength in various substrates. Outstanding humidity resistance.
<b>SJ 3522 SJ 3523</b>	hook, loop	white, black, beige	acrylic	49°C	70°C	Unique adhesive resistant to softeners in flexible vinyl fabric.
<b>SJ 3571*/ SJ 3572*/</b>	hook, loop	white, black, beige, gray	acrylic	70°C	93°C	Reliable performance in extreme temperatures and environments. Suitable for use in exteriors.
